

PROSHARP®

AS 2001 ALLPRO

The AS 2001 ALLPRO® has earned the reputation of a precision sharpening machine desired by many professional hockey teams and players all over the world, as well as high end elite pro shops and sports stores.

With the AS 2001 ALLPRO® many performance aspects of the players skates can be customized such as blade hollow and profile while also providing operational adjustments to wheel pressure and cutting speed. The key to the AS 2001 ALLPRO® is the automated sharpening process that maintains desired wheel pressure & speed, from the toe to heel.

Key Features:

- Fast adjustable hollow. Flat to 1/4 inch.
- Quick pressure and speed adjustment.
- Quick self-centering blade guide.
- Quick set Standard Blade Profiles.
- Superior Combination Blade Profiles.
- Same, consistently sharp edges.
- Simple set up & uncomplicated operation.
- Energy efficient, low maintenance.

Key Benefits:

- Can meet all ranges of customized hollows.
- Allows greater customizations while ensuring consistent toe to heel sharpening.
- Quickly and perfectly align skates with hand lever.
- Fast simple blade profiling templates ensures precise shaping without the need to cross cut blade.
- Uniquely blended custom blade profiles to enhance performance according to player's needs or desires.
- Automated process ensures consistent results every time.
- All adjustments can be made quickly and easily thus reducing machine downtime.
- Designed to minimize cost and maximize operational uptime. Requires very little space to set up and operate.

Technical Data:

Power: 300W Voltage: 1 phase 100-240 VAC 50-60 Hz

Dimensions: (L x W x H) 1250 mm x 350 mm x 300 mm (50" x 14" x 12")

Weight: 35 kg (77 lbs)
